EDUCATION

2022 - NOW
FPT UNIVERSITY |
Infomation Technology - Software Engineering
GPA: 3.2/4.0

CAREER GOALS

Short-term Goals: I am a third-year student at FPT University. My short-term goal is to apply to a software company to gain experience and knowledge in my field of expertise. I am particularly interested in learning in a real business environment. Achieving these short-term goals will motivate me to continuously strive to improve and perfect my skills.

Long-term Goals: I aim to become a team leader or project manager by consistently working hard and enhancing my skills. Through dedicated learning, I will gain the qualities needed for effective leadership and work towards achieving my career aspirations.

HONORS & AWARDS

15/07/2024
Honorable Student of Semeter SP24

26/09/2024
Honorable Student of Semeter SU24

PROJECT

10/06/2024 - 16/07/2024
HEXTECH | E-Commerce Website - PRJ301
- We developed an e-commerce website where customers can view product information, add items to a cart, and make purchases. Admins can manage products and monitor reports.
- For development, we used HTML, CSS, and JavaScript for the front end, and JSP-Servlet with SQL for the back end. This project was my first experience working in a team to create a website, providing me with valuable knowledge and insights on teamwork and product development.
  Link Project: https://github.com/PaimonZero/BanHangOnline

21/09/2024 - NOW
FRESH FOOD STORE | E-Commerce Website - SWP391
- Collaborated on a team project to develop a fresh food store website that included roles such as manager, customer, staff, and delivery staff. Customer-facing features included view product, order creation, online payment via VN-Pay, and order tracking. Admin interface supported product, revenue, order.
- Used HTML, CSS, and JavaScript for front-end development and JSP-Servlet with SQL for back-end. Through this project, I gained hands-on experience in problem-solving, debugging, and improving website performance.

STRENGTHS AND WEEKNESSES

My strengths: My greatest strengths is as a pretty good problem-solver. I can see a situation from different perspectives and get my work done even in the face of difficult obstacles. Proficient in basic programming languages such as Java, HTML, CSS, Javascript, SQL, React JS, JSP-Servlet.

My weeknesses: I was quite shy when it came to public speaking, even when I was in high school or college. However, in order to complete the project and improve the quality of my teamwork, I knew I needed to change so as not to affect the other members.
